PY 2015Q4 WIASRD Public Use Data File
Including Data Quality Revisions

Record Layout

November 8, 2016

The Workforce Investment Act Standardized Record Data (WIASRD) is the major reporting system that the Department of Labor (DOL) uses to obtain information about the individuals served, services provided, and outcomes attained under Title I-B of the Workforce Investment Act (WIA).

Before PY 2009Q3, the WIASRD data were submitted annually by states to DOL. Since then, data have been submitted quarterly.

Universe

The data include persons served by WIA adult, dislocated worker and youth programs and corresponding programs of the Workforce Innovation and Opportunity Act (WIOA), which replaced WIA on July 1, 2015.

The PY 2015Q4 Public Use WIASRD file contains information on individuals who were served by WIA programs between January 1, 2014 and June 30, 2016, the last 2 quarters of PY 2013, all of PY 2014, and those served by WIOA in all of PY 2015. It contains everyone who began participation before July 1, 2016 and either exited on or after January 1, 2014 or had not exited as of March 31, 2016. It includes information on individuals served by local funds, statewide funds, or Dislocated Worker Grants (DWGs). Individuals served only by some particular statewide programs are, however, excluded. Those excluded are individuals served only by rapid response, statewide incumbent worker programs, and other statewide programs that have been excluded from performance measurement because they are highly specialized or have their own specific goals.

Information Provided by the WIASRD

The WIASRD provides information about individuals served by WIA Title I-B and DWG programs. The data are provided in six sections:

A) Individual Information. This section provides basic information on WIA/WIOA exiters, including date of birth, gender, race/ethnicity, disability status, and demographic characteristics. This information is gathered at application to the program or when eligibility for intensive services is determined and is not updated subsequently. For example, highest grade completed represents the education level at either application or when eligibility for intensive services is determined. It is not updated if the person completes additional education during program participation.

B) American Job Center Program Participation. This section provides information on participation in WIA/WIOA programs and participation in partner programs.

C) American Job Center Services and Activities. This section provides information on the receipt of services, including core services, intensive services, the type of training received, and the receipt of supportive services. Services are counted if (1) they were funded by WIA/WIOA or (2) they were partially or completely funded by partner programs and were coordinated with the individual's WIA/WIOA activities, possibly through formal co-enrollment or by inclusion in the individual's WIA/WIOA service plan. Reporting of most partner-funded services is optional.

D) Program Outcomes Information. This section provides information on the outcomes received by WIAWIOA exiters. These outcomes typically represent achievements after exit from WIA/WIOA. Many of these outcomes are based on data derived from UI wage records, which is the primary source of employment information. Due to the lags in availability of wage records, outcome data on the data file is missing for many exiters. These data will be collected in subsequent years' WIASRD submissions

E) User Defined Fields. These fields are blank in the Public Use File to preserve participant confidentiality.

F) Calculated Variables. This version of the WIASRD file contains calculated variables intended to make the data easier to use. These calculated variables were not submitted by states; rather they were calculated based on the standard WIASRD fields. They include calculations of the WIA and WIOA performance measures. These data provide substantial information on WIA/WIOA exiters, their characteristics, the services they receive, and the outcomes they attain.

Data Structure

There is generally one record for each person for a period of participation, regardless of the number of funding streams that served the individual.[1] Unique records are defined by three fields: the state, individual ID and the exit date. Records with overlapping periods of participation and records with periods of participation separated by less than 90 days are combined into a single record.

The data available for an individual depend on the funding streams that provided services to the individual. The four funding streams are:

- **Adult** local and statewide funds

- **Dislocated worker** local and statewide funds and Dislocated Worker Grants

- **Older youth (**age 19 - 22) local and statewide funds

- **Younger youth** (age 14 - 18) local and statewide funds

For adults and dislocated workers the data available also depend on services received. Some data items are available only for adults and dislocated workers that received intensive or training services.

When items are not available for an individual, the data in the field is blank. **Blanks should not be treated as zero or 'no'.**

Because some items are available only for subsets of the data, the user should be aware of when the items being examined are available. If an individual was served by more than one funding stream that person's data should include the data required for each of the serving funding steams. As a result, some items will be available in unexpected situations. For example, fields required only for adults and dislocated workers will be available for youth who also received adult services.

Data Cleaning

In developing the public use files, we conducted some limited data cleaning. Our approach to data cleaning was to make changes to the data only when there was a clear and obvious problem. Thus, the user of the data should not assume that the data have been completely cleaned. In particular, we:

- Removed invalid codes for categorical items

- Set to blank some data items in states that appeared to be reporting incorrectly. Only obvious problems were treated this way. Other cases of incorrect reporting may still exist at the state or LWIB level.

- Set to blank those items that were not supposed to be reported for a given funding stream or service mix.

- Set to blank outcomes when it was too soon to report complete data on the submission date.

- Recoded a few items where it was possible to correct invalid coding used by states.

- Combined duplicate records. Records with overlapping periods of participation or with periods of participation separated by less than 90 days are considered to be duplicates.

- Changed date formats from YYYYMMDD to MM/DD/YYYY.

---

[1] There are exceptions that allow multiple records for a person, such as when the individual is served independently by two WIA/WIOA programs. However, these records have been combined in this data set.

Details on data cleaning are presented in Appendix B.

Calculated Variables

A set of calculated variables has been added to the file, starting with Item 3000. These calculated variables are intended to make the file easier to use. All calculated variables are based solely on the data submitted by states. These calculated variables are listed in the record layout. Definitions of complex calculated variables are provided in Appendix C. WIOA performant indicators (quarter 2 and 4 employment rate and median earnings) were included for the first time in the PY 2015Q3 file.

Confidentiality

The Public Use File has been modified to help assure participant confidentiality as follows:

- If a local area (WIB) had 50 or fewer exiters in a program year, those exiters where excluded from the file. This deletion, did not apply to statewide programs or DWG projects.

- The ID was encrypted.

- The date of birth was set to blank and a calculated integer age was provided.

- The DWG project IDs were set to blank if there were fewer than 3 exiters in a program year for any project ID. A calculated variable identifying DWG participants was provided.

- Several fields have been set to blank as noted in the detailed record layout in Appendix A.

Changes from the PY 2012Q4 Pubic Use File

The WIASRD record layout and reporting instructions were substantially changed beginning with PY 2013Q1. Major changes include:

- Many new fields were added. Reporting on these fields was often very incomplete, as noted in Appendix B.
- Most fields for receipt of a service were replaced by a field for the most recent date that the service was received.
- Yes/no fields are now coded '1' for yes and '0' for no (rather than '1' and '2' as used previously).
- There were also some other changes in codes for categorical fields. For example, a new code '4' for Post Graduate Degree was added to Type of Degree or Credential. As a result, codes that were previously '4' or higher were incremented by one.

States Missing from the PY2015Q4 File

All states submitted files for PY2015Q4, however Guam records have been excluded as they were incomplete.

SECTION A - INDIVIDUAL INFORMATION												
Section A.01: Identifying Data												
100	Unique Individual Identifier	AN 12	Record the unique identification number assigned to the participant. At a minimum, this identifier for a person must be the same for every period of participation in the WIA Title I programs, including National Emergency Grants, and in every local area across the state and where the participant is receiving services or benefits financially assisted by the Wagner-Peyser, Veterans Employment and Training Service, and/or Trade Adjustment Assistance (TAA) programs. And, (2) provide unique identification number of potential "non participant" records, including those identified through Veteran "covered entrants" and TAA applicants that may or may not receive a participant service.	XXXXXXXXXXXX		R	R	R	R	R	R	R
101	State Code of Residence	AN 2	Record the 2-letter FIPS alpha code of the state of the primary domicile of the participant. For example, the State of Alabama would be represented as "AL." Primary domicile is that location established or claimed as the permanent residence or "home" of the participant. If primary domicile is outside the United States, use the following numeric codes: 77 = All Other Countries 88 = Mexico 99 = Canada For persons on active military duty, states should record the two-letter Air/Army Post Office (APO) or Fleet Post Office (FPO) as defined by the Military Postal Service Agency. AE (ZIPs 09xxx) for Armed Forces Europe which includes Canada, Middle East, and Africa AP (ZIPs 962xx - 966xx) for Armed Forces Pacific AA (ZIPs 340xx) for Armed Forces (Central and South) Americas Leave blank if the State FIPS Code is not known.	XX	This field is blank in the public use file to preserve participant confidentiality. Please see calculated fields 3000 to 3000 to 3002, which provide the state that submitted the data. 102	County Code of Residence	IN 3	Record the 3-digit FIPS Code of the County of the primary domicile of the participant. Primary domicile is that location established or claimed as the permanent residence or "home" of the participant. If primary domicile is outside the United States, use the following codes: 777 = All Other Countries 888 = Mexico 999 = Canada Leave blank if the County FIPS Code is not known.	000	This field is blank in the public use file to preserve participant confidentiality. 104	Economic/Labor Market Area and Physical Location Code	IN 9	Record the code (maximum of 9-digits) of the economic/labor market area and physical location in which the participant received his/her first staff-assisted service financially assisted by the program. Grantees have the flexibility to use the first 5-digits of this field for identifying the economic region or labor market area in which the participant began receiving staff-assisted services. The next 4-digits of this field should be used to identify the physical location in which the participant began receiving staff-assisted services. Unless otherwise specified by ETA, codes contained within this field are determined by the grantee. Record 999999999 to indicate "statewide/virtual office" if the participant only received remote or virtual self-service or informational activities. Record 000000000 if not known. A physical location means a designated American Job Center, an affiliated American Job Center partner site, or other specialized centers and sites designed to address special customer needs, such as a company work site for dislocated workers.	000000000	This field is blank in the public use file to preserve participant confidentiality. 202	Individual with a Disability	IN 1	Record 1 if the participant indicates that he/she has any "disability," as defined in Section 3(2)(a) of the Americans with Disabilities Act of 1990 (42 U.S.C. 12102). Under that definition, a "disability" is a physical or mental impairment that substantially limits one or more of the person's major life activities. (For definitions and examples of "physical or mental impairment" and "major life activities," see paragraphs (1) and (2) of the definition of the term "disability" in 29 CFR 37.4, the definition section of the WIA non-discrimination regulations.) If the response is yes, answer data element #203. Record 0 if the participant indicates that he/she does not have a disability that meets the definition. Data Adjustments and Problems

Item	ELEMENT NAME	State	Action	Problem
1	General Issues	All	Records with no funding stream (other than rapid response or statewide incumbent worker) are excluded.	Individuals with rapid response and statewide incumbent worker programs only were not to be reported in the WIZARD. Note that individuals served only by rapid response, additional assistance, are included.
1	General Issues	All	Deleted records for self-service users in AK, AR, AZ, CA, CO, CT, DC, DE, GA, GU, HI, IA, ID, IL, IN, KS, KY, LA, MA, MD, ME, MI, MN, MO, MT, ND, NE, NH, NJ, NM, NY, NV, OH, OK, OR, PA, PR, RI, SC, SD, TN, TX, UT, VA, VI, VT, WA, WI, WV, and WY.	These states submitted records for adults and/or dislocated workers who received only self-services and informational activities. These records were deleted from the file so that the data for these states would be comparable to the data for other states.
1	General Issues	All	Various.	PA, TX, and UT submitted data in a different format than the other states. These states submitted using the proposed OSCCR (formerly called WISPR) format. To the extent possible, the fields in these formats were converted to the standard WIASRD format. In addition, both PA and TX had waivers that absolved them from submitting some data needed to calculate the standard WIA performance measures, but not needed for the common measures.
1	General Issues	PR	Pulled in 1/1/2014 to 3/30/2014 exiters from the PY 2015Q3 submission.	State did not include exiters from these dates in their PY 2015Q4 submission. These additions make the public use file a complete file of 1/1/2014 to 3/31/2016 exiters and continuing participants who began participation on or before 6/30/2016.
1	General Issues	TX	Pulled in 1/1/2014 to 3/30/2014 exiters from the PY 2015Q3 submission.	State did not include exiters from these dates in their PY 2015Q4 submission. These additions make the public use file a complete file of 1/1/2014 to 3/31/2016 exiters and continuing participants who began participation on or before 6/30/2016.
1	General Issues	GU	Data from Guam are not included in the public use file.	No employment outcomes were reported.

Item	ELEMENT NAME	State	Action	Problem
2	Confidentiality Issues	All	If a local area (WIB) had 50 or fewer exiters in a program year, those exiters were excluded from the file. This deletion, did not apply to statewide programs or DWG projects. Changed State of Residence, County of Residence, Zip Code of Residence, and Economic area to blank. Date of birth was changed to blank. DWG grant numbers were changed to blank if the project had 3 or fewer records in a program year.	These changes were made to help assure individual confidentiality.
3	Duplicate Records	All	Combined duplicate and overlapping records into a single record.	Combined records with the same ID and state if they had overlapping periods of participation or periods of participation separated by less than 90 days. These situations should be treated as a single record. There were 79 duplicate and overlapping records, 70 in PA and 9 in TX. Only states submitting data in an alternate format had duplicate records.
3	Duplicate Records	PA	Combined duplicate and overlapping records into a single record.	There were in 70 records that had the same ID and had overlapping periods of participation or periods of participation separated by less than 90 days. These situations should be treated as a single record.

300	Veteran Status	All	Changed to '1' if eligible veteran is '1' or '2'. Changed to '0' (no) if eligible veteran is '0' or '3'. Changed blank to '9' (not disclosed) if eligible veteran is also blank.	Make Veteran status consistent with Eligible Veteran Status (item 301).
300	Veteran Status	WV	Changed to '1' (yes) if eligible veteran status = '1' (< 180 days). (Change made for all states.)	Veteran status was coded '0' (no) for 37% of individuals with eligible veteran status = '1' (< 180 days) and 11% with eligible veteran status ='2'. If eligible veteran status is '1' or '2', veteran status should be coded '1' (yes).
300	Veteran Status	AL	Changed to '0' (no) if eligible veteran status = '3' (eligible spouse). (Change made for all states.)	Veteran status was blank for 95% of records. Most of these records had eligible veteran status coded '0' (no). If eligible veteran status is no, veteran status should also be no.
300	Veteran Status	PR	Changed to '0' (no) if eligible veteran is '0'. (Change made for all states.)	Veteran status was blank for 16% of records. All of these records had eligible veteran status coded '0' (no). If eligible veteran status is no, veteran status should also be no.
300	Veteran Status	NY	Change '9' (not disclosed) to '0' (no) if eligible veteran status is '0' (no). (Change made for all states.)	Veteran status was coded '9' (not disclosed) for 0.8% of records. Most of these records had eligible veteran status coded '0' (no). If eligible veteran status is '0' (no), veteran status should also be '0' (no).
300	Veteran Status	PR	Changed to '0' (no) if eligible veteran status is '0' (no). (Change made for all states.)	Veteran status was coded '9' (not disclosed) for 0.1% of records. All of these records had eligible veteran status coded '0' (no). If eligible veteran status is '0' (no), veteran status should also be '0' (no).

Item	ELEMENT NAME	State	Action	Problem
300	Veteran Status	AL	Changed to '0' (no) if eligible veteran status = '3' (eligible spouse). (Change made for all states.)	Veteran status was coded '1' (yes) for all individuals with eligible veteran status = '3' (eligible spouse). If eligible veteran status is '3', veteran status should generally be coded '0' (no).
300	Veteran Status	IN	Changed to '0' (no) if eligible veteran status = '3' (eligible spouse). (Change made for all states.)	Veteran status was blank for all individuals with eligible veteran status = '3' (eligible spouse). If eligible veteran status is '3', veteran status should generally be coded '0' (no).
300	Veteran Status	MO	Changed to '0' (no) if eligible veteran status = '3' (eligible spouse).	Veteran status was coded '1' (yes) for all individuals with eligible veteran status = '3' (eligible spouse). If eligible veteran status is '3', veteran status should generally be coded '0' (no).
300	Veteran Status	MS	Changed to '0' (no) if eligible veteran status = '3' (eligible spouse). (Change made for all states.)	Veteran status was coded '1' (yes) for 42% of individuals with eligible veteran status = '3' (eligible spouse). If eligible veteran status is '3', veteran status should generally be coded '0' (no).
300	Veteran Status	WA	Changed to '0' (no) if eligible veteran status = '3' (eligible spouse). (Change made for all states.)	Veteran status was coded '1' (yes) for all individuals with eligible veteran status = '3' (eligible spouse). If eligible veteran status is '3', veteran status should generally be coded '0' (no).
300	Veteran Status	AL	Changed to '9' (not disclosed) if eligible veteran status = blank. (Change made for all states.)	Eligible veteran is blank for 12% of records. All of these records have veteran status also blank. This is too high a percentage of blank data. If veteran status is not disclosed, veteran status should be coded '9' and eligible veteran status should be blank.
300	Veteran Status	IL	None.	Veteran Status is '9' (not disclosed) and Eligible Veteran Status is blank for 16% of records. This is too much unavailable data.
301	Eligible Veteran Status	All	Changed blank to '0' (no) if veteran status = '0' (no).	Make Eligible Veteran status consistent with Veteran Status (item 300).

410	Highest School Grade Completed	All	None, except as noted below.	This field requires high school graduates to be reported as code '87' and code '12' to be used for individuals who completed the 12th grade but did not graduate. Before PY 2005, code '12' was used for all individuals who completed the 12th grade, including those who graduated. The file has many more '12's than one would expect. It is likely that many of these '12's are really graduates. Only the most clearly erroneous '12's have been changed to '87', as indicated below.
410	Highest School Grade Completed	All	Changed code '12' to code '87' for individuals with education status at participation (Item 130) = 3 (high school graduate attending postsecondary school) or '5' (high school graduate not attending school).	The coding for highest grade completed was changed for PY 2005. '12' now means completed the 12th grade but did not graduate. Code '87' is now used for high school graduates. We assume that those with highest grade completed of 12 are really graduates if the education status field indicates that they are graduates.
410	Highest School Grade Completed	MA	Changed '0' to blank for adults and dislocated workers who received only staff-assisted core services in WIB 25902.	This WIB has 50% zero for adults and dislocated workers who did not receive intensive or training services and no missing data. The zeroes are probably missing data.
410	Highest School Grade Completed	MO	Changed '0' to blank for adults and dislocated workers who received intensive or training services and have participation dates before 4/1/2014.	Highest grade completed not reported ('0') for 1.5% of adults and dislocated workers who received intensive or training services. No zeros are reported for participation dates before 4/1/2014. Highest grade completed is now required for adults and dislocated workers who receive staff assisted core services.

411	School Status at Participation	All	Make consistent with highest grade completed: -Changed from '1' (attending high school) to '3' (attending post high school) or from '4' (dropout) to '5' (high school graduate) IF highest grade > '12' and not '89' -Changed from '3' (attending post high school) to '1' (attending high school) and from '5' (high school graduate) to '4' (dropout) IF highest grade completed < '12' (but not blank)	Some records have inconsistent data in the school status and highest grade completed fields. This adjustment assumes that the attending school portion of education status is correct and that the detailed highest grade completed is correct. For records with Highest Grade Completed = '12', Highest Grade Completed was changed to be consistent with School Status. See above.
411	School Status at Participation	PA	Make consistent with highest grade completed: -Changed from '1' (attending high school) to '3' (attending post high school) or from '4' (dropout) to '5' (high school graduate) IF highest grade > '12' and not '89' -Changed from '3' (attending post high school) to '1' (attending high school) and from '5' (high school graduate) to '4' (dropout) IF highest grade completed < '12' (but not blank). Same as Change made for all states.	State had more inconsistencies between education status at participation and highest grade completed (2% for youth) than in other states.

905 to 922	WIA Programs	All	Changed code '9' (unable to track) to '0' (no).	We assume that states can track participation in these WIA programs and thus code '9' really means no.
905	Adult (local formula)	WA	None	State under reported new adult participants.

Item	ELEMENT NAME	State	Action	Problem
907	Date of First WIA Youth Service	WA	None	State under reported new youth participants.
908	Youth (Statewide 15% Activities)	All	Changed to blank for individuals who were not youth. This is inconsistent with CT row below. Zero and blank are the same.	Valid only for youth.
908	Youth (Statewide 15% Activities)	IA	None.	State reported that 12% of youth were in statewide programs only (code '1'). Most states are under 1%.
911	Incumbent Worker (Statewide 15% Activities)	TN	None.	Most individuals in adult statewide programs with participation dates between 1/1/2013 and 3/31/2013 are also in incumbent worker programs. In the 2014Q2 submission, none were incumbent workers. Persons in incumbent worker programs should be reported as participating in statewide programs only if they are coenrolled in another statewide program. They should not be reported as being in statewide programs if they are only in incumbent worker programs.
921	Rapid Response	All	Changed to blank if not a dislocated worker.	This field is collected only for dislocated workers. This change makes data consistent among states.
921	Rapid Response	KY	Changed rapid response to '1' (yes) if a most recent date received rapid response (Item 1403) is reported for a dislocated worker. (Change made for all states.)	State reported inconsistencies between received rapid response and most recent date received rapid response. 2% of dislocated workers with Rapid Response '0' (no), have a most recent date reported for received rapid response. If a date is reported in Item 1403, Item 921 should be '1' (yes).
921	Rapid Response	MI	Changed rapid response to '1' (yes) if a most recent date received rapid response (Item 1403) is reported for a dislocated worker. (Change made for all states.)	State reported inconsistencies between received rapid response and most recent date received rapid response. 2% of dislocated workers with Rapid Response '0' (no), have a most recent date reported for received rapid response. 1402	Received Services through a Disaster National Emergency Grant	All	Changed to blank for persons not participating in an DWG project.	This item is collected only for dislocated workers participating in DWG projects.
1402	Received Services through a Disaster National Emergency Grant	IN	Changed to blank (no).	All persons served by DWGs are reported as receiving services through a Disaster DWG. Only individuals served by a disaster DWG should be reported as '1', '2', or '3' in this field. The codes for this field were changed for PY2013Q1. The current codes are: 1 = Temporary job and workforce services 2 = Temporary job only 3 = Workforce services only IN has not had a disaster grant since at least 2012. IN11 is not a disaster DWG and should be coded blank.

Item	ELEMENT NAME	State	Action	Problem
1402	Received Services through a Disaster National Emergency Grant	KS	Changed to '3' if either DWG project ID is KS10. Changed to blank if the only DWG project ID is KSX1.	KS10 and KSX1 are coded as disaster grant for some records, but not for other records. KS10 is a disaster grant; KSX1 is not. The current codes for this field are: 1 =Temporary job and workforce services 2 =Temporary job only 3 =Workforce services only This field should be blank if the DWG is not a disaster grant.
1402	Received Services through a Disaster National Emergency Grant	LA	Changed to blank if the only DWG project ID is LA15.	LA12 are coded as disaster grant for some records, but not for other records. LA15 is not a disaster grant. 1402	Received Services through a Disaster National Emergency Grant	MN	Changed to blank (no) if the only DWG project IDs are MN21, MN23, MN24, and MN25. Blank changed to '3' if either DWG project ID is MN22.	Some persons served by DWGs that are not disaster grants are reported as receiving services through a Disaster DWG (codes '1', '2', and '3'). MN21, MN23, MN24, and MN25 are not disaster grants. MN22 is a disaster grant. Only individuals served by a disaster DWG should be reported as '1,2, or 3' in this field. The codes for this field were changed for PY2013Q1. The current codes are: 1 =Temporary job and workforce services 2 =Temporary job only 3 =Workforce services only
1402	Received Services through a Disaster National Emergency Grant	MO	Changed to blank if the only DWG project IDs are MO36 and MO37. Blank changed to '3' if either DWG project ID is MO34 or MO35.	MO34, MO38, and MO39 are coded as disaster grant for some records, but not for other records. MO34 and MO35 are disaster grants; MO36 and MO37 are not. Only individuals served by a disaster DWG should be reported as '1,2, or 3' in this field. The current codes for this field are: 1 =Temporary job and workforce services 2 =Temporary job only 3 =Workforce services only

Item	ELEMENT NAME	State	Action	Problem
1402	Received Services through a Disaster National Emergency Grant	MS	Changed to blank (no) if the only project ID is MS12.	All persons served by DWGs are reported as receiving services through a Disaster DWG. Only individuals served by a disaster DWG should be reported as '1', '2', '3' in this field. The codes for this field were changed for PY2013Q1. The current codes are: 1 = Temporary job and workforce services 2 = Temporary job only 3 = Workforce services only Previously code '2' meant no. It looks like the state is continuing to use the old codes. MS12 is not a disaster DWG and should be coded blank. Some other reported DWGs may also not be disaster DWGs.
1402	Received Services through a Disaster National Emergency Grant	RI	Changed to blank (no) if the only project ID is RI12.	Some persons served only by DWGs that are not disaster grants are reported as receiving services through a Disaster DWG. Only individuals served by a disaster DWG should be reported as '1', '2', or '3' in this field. Almost all DWG records are coded '3'. The codes for this field were changed for PY2013Q1. The current codes are: 1 = Temporary job and workforce services 2 = Temporary job only 3 = Workforce services only RI12 is not a disaster grant.
1402	Received Services through a Disaster National Emergency Grant	RI	None	RI14 coded as disaster grant for some records, but not for other records. The current codes are: 1 =Temporary job and workforce services 2 =Temporary job only 3 =Workforce services only This field should be blank for persons not is a disaster grant. SD11 is not a disaster grant and should be blank.
1402	Received Services through a Disaster National Emergency Grant	WV	Changed '3' (workforce services only) to blank (no) if the only DWG project ID is WV17.	Almost all DWG participants are reported as receiving services through a Disaster DWG. Only individuals served by a disaster DWG should be reported as '1', '2', or '3' in this field. The codes for this field were changed for PY2013Q1. The current codes are: 1 = Temporary job and workforce services 2 = Temporary job only 3 = Workforce services only WV18 is a disaster grant. WV17 is not a disaster grant and should be coded blank. However, all records for WV17 are coded '3', but should be blank.
1402	Received Services through a Disaster National Emergency Grant	NY	Changed '2' (temporary job only) to blank (no) if neither DWG project ID is NY11 or NY12.	All persons served by DWGs are reported as receiving services through a Disaster DWG (all code '2'). Only individuals served by a disaster DWG should be reported with '1, 2, or 3' in this field. The current codes are: 1 =Temporary job and workforce services 2 =Temporary job only 3 =Workforce services only Previously code '2' meant no. It looks like the state is continuing to use the old codes. NY11 and NY12 are disaster grants.

Item	ELEMENT NAME	State	Action	Problem
1402	Received Services through a Disaster National Emergency Grant	PR	Changed '2' (temporary job only) to blank (no) if the first DWG project ID is not PR05, PR06, or PR07.	All persons served by DWGs are reported as receiving services through a Disaster DWG (mostly code '2'). Only individuals served by a disaster DWG should be reported with '1, 2, or 3' in this field. The current codes are: 1 =Temporary job and workforce services 2 =Temporary job only 3 =Workforce services only Previously code '2' meant no. It looks like the state is continuing to use the old codes. PR05, PR06, and PR07 are not disaster grants and should be blank in this field.
1402	Received Services through a Disaster National Emergency Grant	OK	Changed blank to '3' if either DWG project ID is OK16.	Some persons served by OK16 are reported as receiving services from a disaster grant, but others are not. However, OK16 is a disaster grant and should be reported as '1', '2', or '3' in this field. The codes for this field were changed for PY2013Q1. The current codes are: 1 = Temporary job and workforce services 2 = Temporary job only 3 = Workforce services only

Item	ELEMENT NAME	State	Action	Problem
1402	Received Services through a Disaster National Emergency Grant	PA	Changed to blank (no) if the only project IDs are PA19, PA23, PA24, PA25, PA26, and PA27.	All persons served by DWGs are reported as receiving services through a Disaster DWG. Only individuals served by a disaster DWG should be reported as '1', '2', or '3' in this field. The codes for this field were changed for PY2013Q1. The current codes are: 1 = Temporary job and workforce services 2 = Temporary job only 3 = Workforce services only Previously code '2' meant no. It looks like the state is continuing to use the old codes. PA19, PA23, PA24, PA25, PA26, and PA27 are not disaster grants and should have blanks in this field.
1403	Most Recent Date Received Rapid Response Services	All	Changed to blank if the individual is not a dislocated worker.	This field is to be reported only for dislocated workers.
1403	Most Recent Date Received Rapid Response Services	MN	None.	Most recent date received rapid response is reported for 100% of dislocated workers. This is not possible.
1500 to 1606	Wage and employment outcomes	All	Changed to blank if not adult, dislocated worker, or older youth (except for quarter 1 and quarter 3 employment and wage outcomes).	Only quarter 1 and 3 outcomes are reported for younger youth.
1500, 1501, 1508 and 1602	Quarter One Employment, Match, Industry, and Wages	All	Changed to blank for exit dates on or after 10/1/2015.	Too soon to report on submission date.
1500, 1507, 1509, and 1511	Employment in Quarters 1, 2, 3, and 4 after exit	All	Changed to '1' (yes) if quarter wages >0 but not 999999 or 999999.99.	Person should be reported as employed if wages > 0 in wage records (Items 1603 to 1606).

Item	ELEMENT NAME	State	Action	Problem
1500, 1507, 1509, and 1511	Employment in Quarters 1, 2, 3, and 4 after exit	All	Changed code '3' (Information not yet available) to '0' (no) when complete data are expected for exiters in quarter.	Some states have code 3 (Information not yet available) in quarters when data are expected for exiters in quarter. For quarters where data should be available, code 3 is treated as 'no'.
1500, 1507, 1509, and 1511	Employment in Quarters 1, 2, 3, and 4 after exit	All	Changed blank to '0' (no) for those who have exited, except when specifically changed to blank.	If person is not found in the wage records for a quarter, employment is 'no' unless supplemental data are available.
1500	Quarter One wages and employment	All	Changed to blank for exit dates on or after 10/1/2015.	Too soon to report on submission date.
1501, 1508, 1510, and 1512	Type of Employment Match Quarters 1, 2, 3, and 4 after Exit	All	Changed to '1' (UI Wage Records) if not '1', '2', '3', or '4' and wages in the quarter >0 but not 999999.99.	If wages are reported we assume that UI wage records were used, unless another type of administrative record is reported.
1501, 1508, 1510, and 1512	Type of Employment Match Quarters 1, 2, 3, and 4 after Exit	All	Changed to '0' (not employed) if employment in the quarter not equal '1' (Yes).	Type of match reported only if the person is employed.
1502	Occupational Code After Exit (if available)	All	None.	This field is frequently missing because occupation is not included in the wage records that are used to collect employment outcome data.
1502	Occupational Code After Exit (if available)	All	Changed to blank if not employed in the quarter after exit.	Required item only for those employed in quarter after exit (Item 1500).
1502	Occupational Code After Exit (if available)	All	None.	This field contains the occupation code as reported. Although use of O*Net 4.0 or later codes was required, some other codes are used. We developed a calculated variable by converting these alternate codes and the O*Net 4.0 codes to 8-digit O*Net 10.0 codes. See Item 3019.
1502	Occupational Code After Exit (if available)	All	Changed to blank if all '9's or '0's.	Invalid codes.

Item	ELEMENT NAME	State	Action	Problem
1505	Entered Training-Related Employment	All	Changed to blank in states that are less than 10% yes and in WIBs that are less than 5% yes (among records that are yes or no) or less than 10% yes and was changed to blank in the previous submission, as noted below. Changed to blank in states that are more than 95% yes and in WIBs that are more than 95% yes (among records that are yes or no) or more than 90% no and was changed to blank in the previous submission, as noted below.	There is substantial underreporting of training-related employment. These data adjustments only screened out the most extreme cases. Many other WIBs show low values (<20%). They seem to be reporting that the individual did not enter training-related employment when they don't know whether or not the employment was training-related. Extreme care should be taken when using this data.

1600, 1601, and 1602	Wages in the 3rd, 2nd, and 1st quarters before participation	All	Changed blank values to zero for adult and dislocated workers exiters and for older youth exiters (3rd and 2nd quarters before only).	We assume that blank means zero.
1600, 1601, and 1602	Wages in the 3rd, 2nd, and 1st quarters before participation	All	Changed values of 999999 or 999999.99 to blank.	These values previously signified that the state was unable to obtain the wage record information because the quarter was too far back in time to access easily.
1600, 1601, and 1602	Wages in the 3rd, 2nd, and 1st quarters before participation	All	Changed DWGative values to zero for adults and dislocated worker exiters and for older youth exiters (3rd and 2nd quarters before only).	Cannot have DWGative wages.
1600, 1601, and 1602	Wages in the 3rd, 2nd, and 1st quarters before participation	All	Changed values over 999999.99 to blank.	We assume such values are invalid.
1600, 1601, and 1602	Wages in the 3rd, 2nd, and 1st quarters before participation	All	Changed to blank for those who have not exited and those with exit dates on or after 4/1/2016.	States may not be collecting data for those who have not exited and for those with exit dates on or after 4/1/2016. (Complete exit data are not available for exits on or after 4/1/2016 with this submission and many states show no such exiters). Many states show low percentages with positive earnings for these exiters.
1600, 1601, and 1602	Wages in the 3rd, 2nd, and 1st quarters before participation	AK	Changed blank values to zero for adult and dislocated worker exiters and for older youth exiters (3rd and 2nd quarters before only). (Change made for all states.)	State reported some blank wages, but also many zero and positive wages. If the wage records for the quarter were checked and the individual was not found, '0' should be reported, not blank or 999999.99.
1600, 1601, and 1602	Wages in the 3rd, 2nd, and 1st quarters before participation	AL	Changed 999999.99 to '0' for adult and dislocated worker exiters and for older youth exiters (3rd and 2nd quarters before only).	State reported many 999999.99 (too soon to determine) but almost no '0's. They have a normal amount of positive wages. It is likely that the blank and 999999.99 really mean '0'. If the wage records for the quarter were checked and the individual was not found, '0' should be reported, not blank or 999999.99.
1600, 1601, and 1602	Wages in the 3rd, 2nd, and 1st quarters before participation	GU	None.	GU reported no wages.

1600, 1601, and 1602	Wages in the 3rd, 2nd, and 1st quarters before participation	MI	Changed blank values to zero for adult and dislocated worker exiters and for older youth exiters (3rd and 2nd quarters before only). (Change made for all states.)	State reported many blank preprogram wages, but very few '0' wages. It is likely that the blank wages really mean '0'. If the wage records for the quarter were checked and the individual was not found, '0' should be reported, not blank or 999999.99.
1600, 1601, and 1602	Wages in the 3rd, 2nd, and 1st quarters before participation	MS	Changed blank values to zero for adult and dislocated worker exiters and for older youth exiters (3rd and 2nd quarters before only). 1600, 1601, and 1602	Wages in the 3rd, 2nd, and 1st quarters before participation	NJ	None.	State reported many 999999.99 (too soon to determine) but a reasonable number of zero wages and a normal amount of positive wages. If the wage records for the quarter were checked and the individual was not found, '0' should be reported, not blank or 999999.99. Wages should be available for most of these people if the wage records are checked before the wage records are archived.
1600, 1601, and 1602	Wages in the 3rd, 2nd, and 1st quarters before participation	OH	Changed blank values to zero for adult and dislocated worker exiters and for older youth exiters (3rd and 2nd quarters before only). (Change made for all states.)	State reported a large amount of blank data and no zeroes. The blank data may really mean zero. If the wage records for the quarter were checked and the individual was not found, zero should be reported, not blank or 999999.99.
1600, 1601, and 1602	Wages in the 3rd, 2nd, and 1st quarters before participation	OR	Changed blank values to zero for adult and dislocated worker exiters and for older youth exiters (3rd and 2nd quarters before only). 1600, 1601, and 1602	Wages in the 3rd, 2nd, and 1st quarters before participation	IN	Changed to blank for exit dates on or after 10/1/2015.	Many fewer positive wages for these exiters than for earlier exiters.
1600, 1601, and 1602	Wages in the 3rd, 2nd, and 1st quarters before participation	MA	Changed to blank for exit dates on or after 10/1/2015.	Many fewer positive wages for these exiters than for earlier exiters.

1600, 1601, and 1602	Wages in the 3rd and 2nd quarters before participation	OH	None.	State shows abnormally low preprogram wages for older youth: about 9% positive.
1602	Wages 1st Quarter Prior to Participation Quarter	All	Changed to blank for older youth who are not also adults or dislocated workers.	Not required for older youth.
1602	Wages 1st Quarter Prior to Participation Quarter	PR	Changed to blank for adults and dislocated workers	Wages in the quarter before participation not reported. All records were blank.
1603, 1604, 1605, and 1606	Wages in Quarters 1, 2, 3, and 4 after Exit	All	Changed blank, 999999.99, 99999 to '0' except when specifically changed to blank.	Code 999999.99 was intended to capture cases when it was too soon to capture wage record data—should occur for all or no exiters in a quarter. If it occurs for all or many exiters in a quarter, then was changed to blank above.
1603, 1604, 1605, and 1606	Wages in Quarters 1, 2, 3, and 4 after Exit	All	Values over 999999.99 were changed to blank.	We assume such values are invalid.
1603, 1604, 1605, and 1606	Wages in Quarters 1, 2, 3, and 4 after Exit	All	Changed DWGative values to zero.	Cannot have DWGative wages.

1603, 1604, 1605, and 1606	Wages in Quarters 1, 2, 3, and 4 after Exit	OH	None.	Low percentage of wages are positive for youth due to the use of supplemental data to determine employment.
1605	Wages in the 3rd Quarter after Exit	NJ	Changed to blank for younger youth.	Wages in the 3rd quarter after exit were not reported for younger youth. All records were zero.
1605	Wages in the 3rd Quarter after Exit	NV	None.	Less than 3% of younger youth have wages in the 3rd quarter after exit. This is abnormally low.
1606	Wages in the 4th Quarter after Exit	MT	Changed to blank.	Wages in the 4th quarter after exit were abnormally low. More than 99% of positive values equaled 1.00.
1700	Type of Recognized Credential #1	All	None.	The codes for this field were changed beginning with the PY 2013Q1 submission. A new code '4' (postgraduate) was added. Previously, the codes ranged from '1' to '6'. Currently, they range from '1' to '7'. A few states did not implement the change.
1700	Type of Recognized Credential #1	All	Changed to blank for adults and dislocated workers who did not receive training (as defined above) and were not older youth.	Some states reported credential for individuals who were not recorded as receiving training. Credential counted only for those adults and dislocated workers who received training.
1700	Type of Recognized Credential #1	All	Changed blank to '0' (no) for older youth and for adults or dislocated workers who received training.	Assume blanks mean no when field is required.
1700	Type of Recognized Credential #1	CO	If the type of credential is code '4' or higher, we increased the code by one, but not beyond '7'.	The state reported relatively many code '4's (postgraduate degree) and no code '7's (other). Code 4 is a new code that was added starting with the PY 2013Q1 submission. It looks like the state is reporting the old codes rather than the new codes.
1700	Type of Recognized Credential #1	MT	If the type of credential is code '4' or higher, we increased the code by one, but not beyond '7'. 1700	Type of Recognized Credential #1	All	If credential is blank or '0' (no) for older youth and date attained degree or certificate is on or before the end of the 3rd quarter after the exit date then: -Changed to '1' (High School/GED) if attained degree or certificate (1704) is '1' (High School) or '2' (GED) -Changed to '6' (Occupational Skills Certificate/ Credential) if attained degree or certificate (1704) = '3' (post-secondary Degree)	Many states have abnormally low values of credential for older youth but have similar data in attained degree or certificate (item 1704). Those with '1' (high school diploma) or '2' (GED) in attained degree or certificate are changed to '1' (high school diploma/GED) in credential. Those with '3' (certificated or other postsecondary degree/diploma) are changed to '6' (occupational skills certificate/credential) in credential because the latter is the most common postsecondary outcome for older youth in states with complete credential data.
