

Idaho

Total Funding: \$14,603,051
TAACCCT Grants: 4

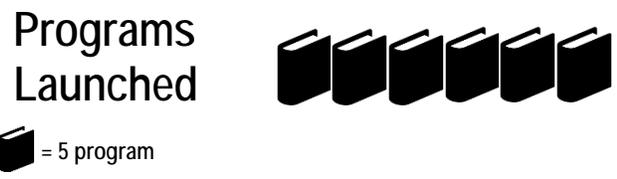

Colleges

- College of Southern Idaho**
- Eastern Idaho Technical College
- Idaho State University - College of Technology
- Lewis-Clark State College
- North Idaho College**

Bolded colleges are grant leads

Statewide Outcomes to Date

30 programs

4,285 participants

1,701 credentials

See explanatory information at <https://www.doleta.gov/taaccct/state-profiles.cfm>

The U.S. Department of Labor's TAACCCT grant program is a major investment in building the capacity of community colleges. Grant funds are not used for tuition, but to create or enhance programs of study that lead to industry-recognized credentials, upgrade equipment, support student success toward completion, and more. TAACCCT supports colleges to better serve workers eligible for training under the TAA for Workers program, as well as a broad range of other adults.

Examples from Idaho

Industry Emphasis of Programs of Study

Healthcare

Manufacturing

Energy

To find free and open career and technical training resources produced by colleges using TAACCCT funds, visit <https://www.skillscommons.org/>.

Idaho Example: College of Southern Idaho's Idaho Ladder to Success project contributed a "[Gamifying Math](#)" resource designed to help explain how math can be used in the real world.

"The aerospace and manufacturing industry in our region has taken note of the programs launched by this project, touting them publicly. The college's investment in aerospace has bolstered the growth of existing companies and aided in recruiting others to the region. The industry group *Idaho Aerospace Alliance*, which formed in part to advocate for the training we now offer, has only grown stronger over the past few years...The grant investment in this project has paid dividends for local students, workers, and industry. Residents of our rural communities now have more exposure and access to well-paying jobs."

Patrick O'Halloran, Dean of Aerospace, North Idaho College, Soaring to Success

"The two distance-learning strategies that the consortium is using to serve the educational needs of Idaho's rural and dispersed population—the host-provider model of course development/delivery and hybrid content delivery—hold great promise."

"Evaluation of the Idaho Center of Excellence Healthcare Partnership (ICE): Interim Report" (SPR Associates, 2016)
