The U.S. Department of Labor's TAACCCT grant program is a major investment in building the capacity of community colleges. Grant funds are not used for tuition, but to create or enhance programs of study that lead to industry-recognized credentials, upgrade equipment, support student success toward completion, and more. TAACCCT supports colleges to better serve workers eligible for training under the TAA for Workers program, as well as a broad range of other adults.

Examples from Maine

Industry Emphasis of Programs of Study

Agriculture

Information Technology

Healthcare

Maine Example: Central Maine Community College's Maine is IT! consortium produced over [40 outreach and other program support materials](#) for the information technology industry.

"Across our seven-campus system, the Information Technology programs that were created or enhanced with grant funds were supported in multiple ways by over 170 separate employer partners. Many of these were first-time partners to the Maine Community College System."

*Michelle Hawley, Grant Project Manager
Central Maine Community College
Maine is IT! (Information Technology)*

"The Growing Maine program has proven to be a highly beneficial asset not only for Farm to Table education within Kennebec Valley Community College's Sustainable Agriculture and Culinary Arts degree programs but to local businesses and industry, the rural Maine workforce, and the community. This would not have been possible without the significant investments made possible by the TAACCCT II grant."
