*Bolded colleges are grant leads*

## Statewide Outcomes to Date

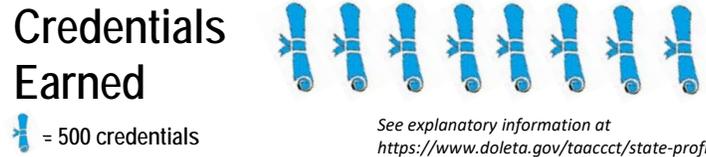

29 programs

4,654 participants

3,812 credential

See explanatory information at <https://www.doleta.gov/taaccct/state-profiles.cfm>

The U.S. Department of Labor's TAACCCT grant program is a major investment in building the capacity of community colleges. Grant funds are not used for tuition, but to create or enhance programs of study that lead to industry-recognized credentials, upgrade equipment, support student success toward completion, and more. TAACCCT supports colleges to better serve workers eligible for training under the TAA for Workers program, as well as a broad range of other adults.

## Examples from Oklahoma

### Industry Emphasis of Programs of Study

Manufacturing

Healthcare

Transportation

Energy

To find free and open career and technical training resources produced by colleges using TAACCCT funds, visit <https://www.skillscommons.org/>.

**Oklahoma Example:** The Advanced Manufacturing, Aerospace, and/or Transportation & Logistics Pathways Project contributed [learning resources](#) that give an overview of workplace safety in the manufacturing industry, including manufacturing as a career, communication, team work and training, PPE, material handling, tool and machine safety, electrical and fire safety, and hazardous materials safety.

"Industry partners assisted with training students in the [National Aviation Consortium (NAC) program at Tulsa Community College]. Spirit AeroSystems provided onsite classrooms and lab facilities for NAC students, and much of the classroom training took place at Francis Tuttle Technology Center and Tulsa Tech...The NAC training is a requirement to be hired at Spirit AeroSystems, and students had a high placement rate with this employer. Tinker Air Force Base...also placed many participants. To be eligible to apply for a position [there], individuals must either be currently enrolled in or have completed the NAC program."

*"National Aviation Consortium: Final Report" (Kansas State University, College of Education, 2016)*

"The CFEST [Commercial Food Equipment Service Technician] program and pathway is directly linked to employer skill needs and available occupations in the Oklahoma City area."

*"Interim Evaluation Report: Oklahoma City Community College's CFEST Program" (WorkED Consulting, LLC, 2016)*
