

TAADI Self-Check Change History

9/12/19

- Enhancement: Added “9130 Reporting Issues” calculations to Tab 3. Enter 9130 Data
 - This will require entering 2 additional lines from the ETA-9130 (M)

7/17/19

- Corrected measurable skills gains and credential attachment performance results in line with the amended OMB Control No. 1205-0521 (6/2018)
- Set default Submission Quarter to 6/30/2019 (1. Instructions tab)

3/27/19

- Petition Number calculation adjusted to accurately calculate if State reports TAA Petition Number (PIRL 915) with leading 0s. Note: State must paste this column as text for this to be true.
- Set default Submission Quarter to 3/31/2019 (1. Instructions tab)

3/5/2019

- Reordered TAADI measures
- Petition Number calculation updated to include constraints on First TAA Benefit or Service (PIRL 925)
 - Descriptions tab was also updated to reflect these constraints
- Petition Number calculation adjusted to accurately calculate if State reports TAA Petition Number (PIRL 915) as text

2/21/2019

- Corrected Job Search and Relocation Numerator
 - Note: This was correct on all previous versions. Only the 2/20 version had this error.

2/20/2019

- Added functionality:
 - Filter results by specific WIB name, office name, or case manager.
 - Select quarter ending or rolling 4 quarters for performance results
- Corrected post-secondary credential performance result

2/12/2019

- Wages Measure no longer flags 9s wages that do not have 00 or 99 cents.

2/6/2019

- Petition Number Measure now appropriately accepts 888888 for Farmers and Fishers Program
- Rows reduced from 10,000 rows to 8,000 rows to reduce file size

1/30/2019

- Revises measures to FY 2019 including:
 - Combines Wages Prior and Wages Following into single Wages measure
 - Deprecates Tenure Measure (Edit checks now handle)
 - Deprecates Employment After Exit (Edit checks now handle)
 - Adds Petition Number Measure

- Adds Training Case Management Measure
- Adds Service in Quarter Measure
